Bengaluru, Karnataka

PROFESSIONAL OBJECTIVE

Motivated and detail-oriented information Science & engineering graduate with a knowledge in Full Stack Development, MERN Stack, and Cyber Security. Seeking an opportunity to apply technical expertise, enhance professional skills, and contribute effectively to organizational growth while building a successful career in the IT industry.

EDUCATION

Don Bosco Institute of Technology, Bengaluru

Bachelors of Engineering in Information Science and Engineering

7.71 CGPA

2023 - 2026

Bengaluru

Government Polytechnic College, Harihar

Percentage 62.51

2022

Harihar

SKILLS

- **Programming Languages:** C, Python, Java, SQL
- **Web Technologies:** HTML, CSS, React.js, Node.js
- **Frameworks & Tools:** Git/GitHub, MS tools
- **Data Visualization:** Power BI, Tableau, Excel (Pivot Tables, VLOOKUP)
- **Technical Skills:** Git/GitHub, Postman

PROJECTS

Shopping Mall Management System – Spring Boot Web Application

Role: Backend Developer

Technologies: Java, Spring Boot, REST API, MySQL, Postman, Maven

- Developed a full-stack backend system to manage customers, products, orders, and digital payments.
- Designed RESTful APIs for customer registration, order placement, and simulated payment processing.
- Implemented order-item mapping, automatic total calculation, and order tracking, and order status workflows (CREATED, CONFIRMED) Built secure CRUD operations with validations, exception handling, and MySQL persistence.
- Integrated Postman API automation for testing all modules (create, update, delete, payment processing).

ByteBrain Quiz App | MERN Stack Project

Built a full-stack quiz application using React.js, Node.js, Express.js, and MongoDB with separate user and admin dashboards.

- Developed user authentication screens for login and signup with role-based navigation for users and admins.
- Built quiz functionality with category-based questions, score calculation, result display, and leaderboard ranking.
- Created admin features to add and delete quiz questions through REST APIs.
- Designed backend APIs using Express.js and MongoDB/Mongoose for managing users, quiz questions, and scores.
- Integrated React frontend with backend APIs using Axios and managed routing with React Router.

INTERNSHIPS / TRAINING

Full Stack Web Development (MERN) Intern

SuprMentr Technologies Pvt Ltd | Feb 2026 – May 2026

During the 90-day internship, developed a quiz website project named ByteBrain using MongoDB, Express.js, React.js, and Node.js with features like category-based quizzes, authentication, and responsive UI. Improved problem-solving, debugging, and full stack development skills through hands-on project development.

Java Full Stack Development

TNS India Foundation

Certified in SQL, Java, SQL, Core Java 8, JPA with Hibernate, GIT, Spring 5.0, Spring Boot, HTML5, CSS3, JavaScript, TypeScript, React, and Soft Skills.

CERTIFICATIONS

- Completed a **Cyber Security** course covering networking, ethical hacking, vulnerability assessment, and security fundamentals from **Udemy**.
- **NPTEL** certification on **Deep learning**- IIT Ropar.
- Successfully completed beginner-level certifications in **Artificial Intelligence fundamentals and Project Management fundamentals** from **IBM SkillsBuild**.
