PROJECTS

BizBridge AI – AI-Powered Business Discovery & Networking Platform

Tech Stack: MongoDB, Express.js, React.js, Node.js, Tailwind CSS

- Developed and deployed a full-stack MERN application connecting freelancers with local businesses for digital transformation opportunities.
- Implemented secure JWT-based authentication with role-based access for Freelancers and Business Owners.
- Built AI-powered proposal generation, outreach email generation, business insights, and website preview features.
- Designed a CRM system for managing business leads, professional profiles, notifications, and client interactions.
- Integrated automated email services using Nodemailer for welcome emails and password recovery.
- Deployed the application using Render (Backend), Vercel (Frontend), and MongoDB Atlas (Database).
